questions.

The Art of Reading Smoke, developed by Dave Dodson and continued by Rob Backer, provides the knowledge necessary for first-arriving firefighters, officers, and chief officers to determine the fire's location, progression, and future "from the seat" before seeing any flame. This knowledge ensures that the correct tactics are implemented for the best possible outcome. Through the extensive use of actual fireground videos, first-time students will develop, and return students will refine their knowledge and skills to become **INTELLECTUALLY** aggressive firefighters, rather than **ARBITRARILY** aggressive. The next generation of Reading Smoke brings new research, a new library of videos, and discussion on cancer prevention, tactics and strategies to develop the next generation of aggressive interior firefighting!

September 28th, 2024, 9 a.m. to 5 p.m.

Sterling High School Auditorium
407 W Broadway Street Sterling CO 80751
